ABOUT ME

Architect Technologist Assistant dedicated to assist and develop projects to other architectural practices since 2014. Eight years of experience in Housing and Interior Design Process using BIM technologies, with high artistic capacity in each design and broad mastery of contemporary architecture.

Exceptional 3D virtual reality and modelling skill to visualise all the project stages.

My proficiency in ARCHICAD, REVIT, allows me to detail all the building documentation on which I been working with an excellent level, according to the new BIM Standards.

SOFTWARE SKILLS

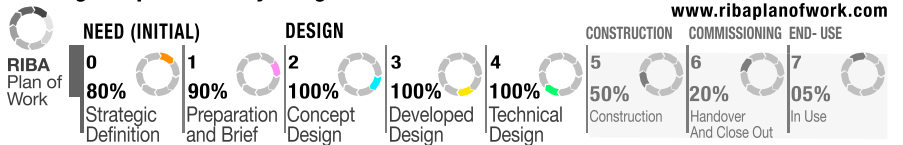

EDUCATION

ARCHITECT (Part III), University of Los Lagos, Osorno, Chile - 2014

BACHELOR (Architect Part II) of Architecture and Urbanism, University of Los Lagos, Osorno, Chile - 2010

B.I.M. CERTIFICATION, Institute of Contruccion, Castilla y León, Spain - 2016

Average Experience by Stage.

WORK EXPERIENCE

2015 - 2019

ARCHITECT PART III, DEWEEK CHILE; OSORNO, CHILE

I am the founder and project leader at Deweek Chile Ltd., which was a small practice located in the Chilean Patagonia until 2018, focused on residential, commercial and landscape architecture design. It was dedicated to lodging projects in rivers, lakes, mountains and shelter-type residences in multiple and complex geographic locations with extreme weather conditions in southern Chile (Patagonia).

2016 - 2017

B.I.M. ARCHITECT PROFESSOR, INACAP; OSORNO, CHILE

B.I.M., was a practical subject of the speciality training area for the construction and civil engineering degrees at the INACAP university. In this subject, I provided students the introductory knowledge and technological tools based on the BIM Level II to model, coordinate and optimise the construction processes of a building project, to simulate the main construction stages.

2010 - 2018

ASSISTANT ARCHITECT, ROMERO&YAÑEZ ARCH'S., ELEMENTA ARCH'S, PENNA ARCH'S.; OSORNO, CHILE

I did consultancy in analysis, designs, 3D modelling and architectural strategies in diverse kinds of projects to many architects and practices. I also helped with the development of virtual reality needed for each project through the use of BIM technology.

ACHIEVEMENTS

2015 - 2019

CO-FOUNDER AND COORDINATOR. CERRO ARRIBA; OSORNO, CHILE

Cerro Arriba Foundation to the Outdoor Life is a non-profit organisation based in the Chilean Patagonia, which was founded to promote teamwork and collaboration in various subjects such as education, culture, art, mountaineering, tourism, environmental conservation and deep ecology.
